# The Campbell Visitor

VOL. 9, No. 47 CAMPBELL, SANTA CLARA CO., CALIFORNIA, MAY 4, 1904 $1.00 A YEAR

### CONGREGATIONAL CHURCH.

**REV. GEO. E. ATKINSON, Pastor.**

We are always glad to see strangers at our services. We should be pleased to welcome you and to have you worship with us. Feel free to make this your church home.

You will find our meetings bright, brief and brotherly.

Services every Sunday morning and evening. Sunday School after morning service and Endeavor just preceding the the evening service. Our midweek service is Wednesday evening.

"Come thou with us and we will do thee good."

### METHODIST CHURCH.

**REV. J. F. JENNESS, Pastor.**

The following services will be held next Sunday:

10:15 a. m. Class meeting.
11:00 a. m. Morning worship.
12:15 p. m. Sunday-school
6:00 p. m. Senior and Intermediate Leagues.
7:00 p. m. Evening worship.

A cordial welcome will be extended to all these services.

## LOCAL NOTES.

Full line summer hats just received at Blodgett's. See them before buying.

Rev. J. H. Wythe preached in the Methodist church at Campbell Sunday.

Mr. and Mrs. Thomas Marrs welcomed a baby boy to their home Monday, May 2.

Col. Cooper goes to Southern California Friday, where he will visit with his son George Cooper at Redlands, and with his sisters, Mrs. Watson and Mrs. Bull at Long Beach.

A party of young people surprised Fred Hanger at his home on the Los Gatos road Friday night by way of giving him a good send off on his trip east. A jolly good time was enjoyed by all.

Mrs. Rufus Preston and family joined Mr. Preston here this week. They are overjoyed at getting back to this country and have taken possession of their beautiful mountain home.

Our local grocerymen closed stores Monday and went on a picnic. Had a great time and judging from the prizes some of our local celebrities brought home we have some athletes among our grocerymen families.

At a meeting held on Monday evening in accordance with the published notice, the Campbell, Cal. Republican Club was organized for the campaign of 1904 by the election of A. G. Williams, Pres.; S. R. Wade, Vice Pres.; A. P. Merrill, Secretary and Treasurer. The Secretary will enroll names of all who wish.

Mrs. O. L. Ingels left last Thursday for Colinga to visit her husband. She will be gone about two weeks.

Mr. Tuttle passed away at his home on Harrison Avenue last Sunday morning at 10 o'clock. He was over 80 years old, and death was not altogether unexpected. His daughters, Mrs. J. R. Stephens of Campbell and Mrs. Cook of Los Gatos were present at the time of his death. The remains were taken to Watsonville for interment.

Prospects are that Campbell will have two electric roads before long. The First Street R. R. Co., are still actively at work securing rights of way from the "Willows" to this place and this week our citizens were visited by F. S. Granger and T. C. Barnett in the interest of a road from Los Gatos to San Jose, by way of Union district. A right of way has been guaranteed over part of the distance and these gentlemen are at work securing rights of way over the balance of the district. Campbell can afford to have two roads and these enterprises will be watched with interest.

## Dedication of the High School Building.

Our new high school building will be fittingly dedicated on Thursday, May 12. The exercises will begin at two in the afternoon and will be of great interest. The address will be made by President Benjamin Ide Wheeler, of the University of California, and the program will include the delivering of the keys by the contractor; the acceptance of the building by the trustees; presentation of gifts by the classes of Alumni and Seniors. There will be also fine music and singing. Everybody is cordially invited.

## Grange Meeting.

Orchard City Grange, Campbell, met in regular session on Tuesday of last week. The attendance was large in expectation of the report of the committee appointed two weeks before to meet with committees from the Farmer's club and from other Santa Clara county granges in joint session, for discussion of the proposed prune demonstration at the St. Louis exposition.

F. Mitchell, worthy master, had appointed as chairman of the Orchard City committee E. W. Allen, who had gone through the Chicago fair in an official capacity, which had brought him in daily contact with exhibitors, especially of food preparations.

Mr. Allen advocated, at the grange meeting of April 12, the selling of small dishes of cooked prunes with cake, in place of giving the fruit away, his experience having shown him that a food product so treated would command more consideration than when given away, and could be made to bring in considerable revenue. After a spirited discussion the grange accepted his plan by a unanimous vote, and instructed the committee to present it clearly to the joint committee, but to take no decisive action involving the grange until a report of the joint meeting could be made to the grange in regular session. This occurred on the night of the 26th.

Before that time, however, the Campbell patrons of husbandry had learned through the columns of the "Mercury" of the honor conferred on the chairman of their committee. At the joint meeting of the committees in the rooms of the Farmers' club Mr. Allen had, after reiterated refusals on his part, been unanimously elected chairman of the general committee to arrange the prune demonstration.

"Woman's Work" was the theme of the evening and interesting papers on different phases of the subject were presented by several ladies, among them Mrs. J. J. Cornell, Mrs. S. G. Nelson, Mrs. Shaw and Mrs. White.

A report was received from the committee appointed to meet with the committees from other county granges to arrange the world's fair fruit exhibit. A considerable sum has been secured from the grange and from private sources. The committee is composed of E. W. Allen, J. Bohnett, and Mrs. J. J. Cornell.

## CAMPBELL

*(THE ORCHARD CITY)*

Lies 50 miles south of San Francisco on the Santa Cruz division of the Southern Pacific Railway, 5 miles from San Jose, in the famous Santa Clara Valley, the garden spot of the State.

***SCENERY SUPERB***

With the Santa Cruz Mountains to the west and south and the Coast Range on the east, a majestic amphitheatre is formed, the beauty of which can not be excelled anywhere. ampbell has an altitude of 195 feet. The cool breezes from San Francisco bay at the north insure an even and comfortable temperature throughout the summer months, while the winters are warm and pleasant. Flowers bloom out of doors the year around.

***EDUCATIONAL ADVANTAGES***

Campbell has a population of about 600. It maintains a (third class) postoffice which distributes mail to 3,000 patrons, covering over 30 square miles of orchard homes. There are two churches —Methodist and Congregational—a first class High School and Graded School, and within a few miles are two Universities, two Colleges, a State Normal School and several Business Colleges and private schools.

The Stanford University with its marvelous architecture is only 20 miles away.

***NO SALOONS***

Campbell has a complete water system of its own. It has electric lights and power for mechanical purposes, which is distributed throughout the orchard district. A telephone exchange serves over 40,000 people. A prohibitory clause in all deeds to property within the town limits, prevents the saloon from being established.

***FINE ROADS AND RESORTS***

The Santa Clara Valley boasts of the finest roads to be found in the State. It has over 350 miles of sprinkled rural highways. In attractions for tourists the Santa Clara Valley can not be surpassed. Thirty-two miles eastward over a magnificent mountain road is the famous Lick Observatory on Mt. Hamilton, 4,444 feet above sea level. There are numerous mountain retreats within two hours' drive for those who love the camp and sparkling brook. The sea beach to the southward 27 miles by rail or carriage drive, and through the most beautiful mountain scenery in the world.

A trip to the Big Trees, twenty feet in diameter and two thousand years old, will furnish a delightful day's outing.

***MINERAL SPRINGS***

The hot springs of Alum Rock Canyon and Congress Mineral Springs are within two hours' drive, giving a panoramic view of the entire valley.

The Almaden Quicksilver Mines, the largest in the world are within easy access by rail or team.

The largest seed farms in the world only 10 miles distant.

***FRUIT CENTER***

Campbell's mammoth fruit dryer and packing house is the largest in the world. It has a capacity of over 10,000,000 lbs.

The Campbell Orchard District is noted for the quality of its fruits. For delicacy of flavor and beauty and perfection of color, its cherries, apricots, peaches, apples, plums, grapes and pears, have no equal in their fresh state, and command the highest market price. As cured or dried fruit the Campbell prune, apricot, and peach is shipped to every civilized country on the globe. Nearly one-half of all the prunes grown on the continent are from Campbell orchards. One and a half million cans of fresh fruits are packed in Campbell every season.

The demand for intelligent labor is increasing every year. Families desiring profitable employment in orchards, packing houses and canneries find this an ideal home.

***LAND VALUES MODERATE***

Land values are very moderate—bare land brings from $100 to $300 per acre and when set to trees sells from $200 to $1,000 per acre, according to location and age of orchard. Ten to fifteen per cent is an average net income, while many places yield a much higher rate.

In short a Campbell home is one surrounded with HEALTH, WEALTH AND PLEASURE.

## Notice of Annual Meeting of Stockholders.

Notice is hereby given that the Annual Meeting of the Stockholders of the Campbell Fruit Growers' Union, a corporation, will be held at its place of business in Campbell, California, Wednesday, May 11th, 1904, at 10 o'clock a. m. for the following purpose:

FIRST: To receive the report of the officers.

SECOND: To elect a Board of Directors.

THIRD: To make such changes or amendments in the By Laws as may be deemed wise.

FOURTH: To transact any and all other business that may properly come before that meeting.

JOS. H. RUCKER, President.

S. G. RODECK, Secretary.

Campbell, Cal., Apr. 27th, 1904.

## The Primary Election.

The primary election Tuesday proved to be a very tame affair, there being only 17 votes polled —11 Republican and 7 Democratic. The fact that only delegates to the State conventions were to be elected was probably the real cause for the lack of interest, and few voters knew anything about it. One good Campbell brother was elected a delegate to the Prohibition convention and did not know that there had been a primary election until it was over. Another Campbell brother was elected to the Republican convention and he didn't go to vote. How easily honors come to some men.

S. R. Wade was the delegate elected from here to the Republican convention at Sacramento; C. H. Whitman was elected to the Democratic State convention at Santa Cruz, and Rev. B. F. Kephart was elected to the Prohibition State convention to be held at Oakland—although there were no Prohibition votes polled in this precinct.

**LIVER TROUBLES**

"I find Thedford's Black-Draught a good medicine for liver disease. It cured my son after he had spent $100 with doctors. It is all the medicine I take."—MRS. CAROLINE MARTIN, Parkersburg, W. Va.

If your liver does not act regularly go to your druggist and secure a package of Thedford's Black-Draught and take a dose tonight. This great family medicine frees the constipated bowels, stirs up the torpid liver and causes a healthy secretion of bile.

Thedford's Black-Draught will cleanse the bowels of impurities and strengthen the kidneys. A torpid liver invites colds, biliousness, chills and fever and all manner of sickness and contagion. Weak kidneys result in Bright's disease which claims as many victims as consumption. A 25-cent package of Thedford's Black-Draught should always be kept in the house.

"I used Thedford's Black Draught for liver and kidney complaint and found nothing to excel it."—WILLIAM COFFMAN, Marblehead, Ill.

IN THE SUPERIOR COURT OF THE STATE of California in and for the County of Santa Clara. In the Matter of the Guardianship of the Person and Estate of Catharine Loveland, an Incompetent Person. Order to show cause why mortgage of real estate should not be made.

The petition of L. E. Stevenson, Guardian of the Person and Estate of Catharine Loveland, an Incompetent Person, to mortgage real estate of said Incompetent, having been heretofore filed with the Clerk of the Superior Court of the State of California, in and for the County of Santa Clara.

It is hereby ordered that all persons interested in the estate of said Incompetent person, be and they are hereby required to appear before the aforesaid Superior Court in Department II thereof, at the court room of said Court, at San Jose, California, on Friday, the 29th day of April, A. D. 1904, at 10 o'clock a. m. then and there to show cause why the real estate of said Incompetent, or some part thereof, lying and being in the County of Santa Clara, State of California, and described as follows:

First: All of that piece or parcel of land in the county of Santa Clara, State of California, containing 32 acres, more or less, and being a part of lots 4, 5 and 6, Section 29, Township 6 South, Range One West and part of the Rancho Pastoria de las Borregas, said piece or parcel of land being set aside by the above entitled Court as the separate homestead to the said Catharine Loveland, in the matter of the Estate of Cyrus C. Loveland, deceased, a certified copy of said decree being of record in the office of the County Recorder of Santa Clara County, California, in Book N of Miscellaneous, page 257.

Second: An undivided six-twelfths in and to that certain piece or parcel of land in Santa Clara County, California, containing about 42 acres, and bounded on the East by the public road known as the Lawrence Station Road, on the South by the 12 acre tract of land now or formerly owend by Mary J. Britton, on the West by the farm known as the Southerland place, but now the Flickinger place, and on the North by the homestead and residence of said Catharine Loveland.

Third: All that piece or parcel of land in the County of Santa Clara, State of California, containing 12 acres more or less, bounded on the East by the road known as the Lawrence Station road, on the south by the private road, known as Southerland lane, on the West by the old Southerland place, but now the Flickinger place, and on the North by lands of the estate of C. C. Loveland, and being the same piece of land deeded by Mary J. Britton to Catharine Loveland by deed dated September 28, 1888, and recorded in Book 110 of Deeds, page 234, Records of Santa Clara County, California.

Fourth: All of that piece or parcel of land in the County of Santa Clara, State of California, bounded on the North by lands of M. J. Britton, on the East by the public road known as the Lawrence Station Road, on the South by the Homestead set apart to Catharine Loveland in Estate of Cyrus C. Loveland, deceased, as shown by a certified copy of the decree recorded in Book N of Miscellaneous, page 257, Records of Santa Clara County, California, and on the West by the East line of the Rancho Pastoria de las Borregas, containing about 20 acres of land, and being all the interest of Catharine Loveland in Lot 3 of Section 29, Township Six [6] South, Range One [1] West, Mount Diablo Meridian.

Should not be mortgaged for the sum of $4500.00 mentioned in said petition, or such lesser amount as to the Court shall seem meet, and said petition on file is referred to for further particulars;

And it is further ordered that this order be personally served on all persons interested in said estate at least ten days before the time appointed for the hearing of said petition, or by publication thereof, at least once a week for four successive weeks in the CAMPBELL VISITOR, a newspaper of general circulation, published in the County of Santa Clara, State of California, next before the time appointed for such hearing.

M. H. HYLAND,
Judge of the Superior Court.

## California and Connecticut.

It appears that in the iron trades manufactures the pre-eminence of the United States over other nations is most decided. It is within the remembrance of the present generation that the statement was adhered to that we were an agricultural country, and would never become a manufacturing country, much less a leader therein. Now, however, and for several years past our supremacy in this most important branch of all manufactures is established over all nations.

It has been and is now asserted that California is an agricultural state, and can never successfully compete with the eastern United States in the markets of this and other nations in general manufacturing. No particular attention has been given in California to manufacturing for the world's markets, and, in the true sense of the meaning of the word, there is not a machine manufacturing concern on the Pacific Coast; in other words, there is not a concern having a full complement of improved machine tools and up to-date methods, such as a complete system of milling machines, grinding machines, including electric chucks, monitor lathes, multiple-spindle drilling machines, gear cutters, automatic tappers, key-way cutters and key-seaters, profilers, drop-hammers, standard measuring and testing machines, and furnaces for annealing, hardening and Harveyizing steel, together with a liberal supply of small tools, gauges, etc. Other manufacturing industries, as well, are away below par when compared with those of the East; there are factories but no manufactories in California.

It is definitely certain that neither California nor any other section of the United States, in the days of progress, could successfully conduct manufacturing on such pettifogging basis; neither could California successfully compete in the world's markets with her agricultural products were they produced on such a basis.

An interesting fact is, according to the census report of 1900, that workmen employed in the manufacturing industries in the temperate climate of California, produce 32.9 per cent more in value of product, and with less fatigue, than do the workers in the climate of extremes in the Eastern states. This is accomplished in the face of the fact that concerns are at least twenty-five years behind the equipments of the latter mentioned states, and are producing work on a retail basis while concerns of the Eastern sections are manufacturing on the most gigantic scale in the world.

According to the census reports of 1900, Connecticut approximates California in value of manufactures more nearly than does any other Eastern state, the number of establishments in Connecticut being 9,128, representing an invested capital of $314,696,736; while in California there were 12,582 establishments, with an invested capital of $205,395,205. Though Connecticut is known as the manufacturer of "Yankee notions," (light manufacturing,) she has 47 per cent more invested per establishment than California which shows the insignificance of the individual manufacturing concerns of California.

The number of wage earners in Connecticut was 176,694, producing a value of manufactured products of $352,824,106, and in California 91,047 operators were employed, producing a value of products of $302,874,761. The cost of raw materials used in Connecticut was $185,641,219, and in California $188,125,602.

Deducting the cost of the raw materials from the value of the manufactured products of either state, and dividing the remainder by the number of operatives employed, a value of output per operative of $940 is represented for Connecticut, and $1,260 for California, or 32.9 per cent more in favor of California. The California operative, however, receives 8 per cent higher wages than the Connecticut operative; nevertheless the salaried officials, clerks, etc., of Connecticut receive 16 per cent more than do those of California. This difference in salaries is somewhat surprising, and in

part, balances the higher wages paid in California, which latter, however, are low in consideration of the fact that where light manufactures, such as typewriters, bicycles, clocks, watches, pins, buttons, cotton and woolen goods, and general notions, are extensively manufactured, as in Connecticut, boys, girls, and other low wage operatives may be employed for the attendance of the automatic machinery.

The census shows that the wage earners of the Central states, where heavier manufacturing is largely carried on, receive but 2 per cent less than the California workers and this difference can certainly be accounted for by the fact that the equipments of the California concerns are much below par when compared with those of the Eastern and Central states. It is, however, irrifutable that the United States is able to successfully compete with countries in which far lower wage rates prevail, the controlling economic question being, not the daily wage of the operatives, but the wage cost of the articles. This, therefore, as well as the inflexible law of supply and demand, dissolves the question of difference of wages in Connecticut and California.

It is of interest to note that the census returns show that the cost of heat and power in Connecticut was 13 per cent more than in California for the same value of manufactured product, the report being based on coal, and of still greater interest is this as the cost of coal in California is double the cost in Connecticut. Oil fuel is now extensively used in California; pipe lines are as yet laid but short distances, nevertheless oil is delivered in San Francisco and vicinity by tank cars for 70 cents per barrel, which gives California a fuel 38 per cent cheaper than the best bituminous coal used in Connecticut at $3.60 per ton. According to the census report, the cost of fuel in Connecticut was $5,090,746. Now, therefore, if these concerns of Connecticut were located in Santa Clara county, California, a saving in fuel alone of $3,502,514 would result, representing a saving of over 1 per cent on the invested capital, certainly a most remarkable showing for a lesser factor.

With a moment's consideration of this and the previously mentioned greater factors, together with the fact that in Callfornia less capital is required to be invested in buildings, it is self-evident that were manufacturing engaged in with the same degree of enterprise, steadfastness of purpose, and understanding as in Connecticut, California could prepay freight and place the manufactures of Connecticut within that state at a cost several per cent lower than it would be possible for Connecticut to produce them for at home.—Extracts from "The Era of California's Supreme Possibilities."

**Extracts from Maxwell's Talisman.**

Idleness and poverty always dwell together, and misery and crime are their natural offspring.

Success is nothing more than the result of doing whatever you can do, not only well but just a little better than anybody else.

Cheerfulness is a light that may be kept ever burning in the humblest home. It has no meter on it, and all may enjoy its rays without stint.

The possibilities of irrigation are illustrated in a report on Egypt just made by a government expert. It is shown that a tract of land no larger than the irrigable lands of California sustains from agriculture alone 6,000,000 people, supports an expensive government and pays the interest on the national debt that is half as big as that of the United States.

The United States Department of Agriculture estimates that 232,000 tons of beet sugar will be produced in this country this year. The crop in Michigan is expected to yield 74,000 tons; California, 62,000 tons, and Colorado 44,000 tons. Eleven new factories have been started up during the year, six in Michigan, three in Colorado, one in Utah and one in Idaho.

The good roads movement will grow until substantial results are realized in the way of systematic road building, because its importance demands it. When the people realize the expensiveness of bad roads, they will demand the cheapest roads, which are good hard roads that can be used with facility every day in year. Bad roads are a heavy tax on the people who use them, and the tax falls heavily upon the farmers and producers. Good roads, once paid for, are a perpetual saving to travel and transportation.

# FOR RICH RED BLOOD

# SILVER BELLS

## Revolution in Bread-Making

We have found the flour that is going to make a revolution in Bread Making.

WHY?

It is made from Blue Stem Wheat and Hard Wheat from Minnesota, and it is blended in such proportions as to produce flour for bread making that has never before been offered in this community.

Silver Bell Flour, the miller tells us, contains 28 per cent gluten.

Housekeepers coming here from the East ask why they can not obtain flour equal in quality to Pillsbury's Minnesota Flour.

The answer is that most California flour is made from Australian Wheat, while Minnesota's best Patent Flour is made from Hard Wheat.

SILVER BELL FLOUR is put on the market with the assurance that it is not excelled in quality by any flour whether made here or in the East. We claim for Silver Bell Flour that it will make from eight to ten more loaves of bread to the barrel than flour made from Australian Wheat and we are going to offer this carload of Silver Bell Flour at the regular prices for our local flour:

| | |
|---|---|
| Barrel | $5.10 |
| 100-pounds | $2.55 |
| 50 pounds | $1.30 |

It is our expectation that every bread maker in Santa Clara county will not rest satisfied with her bread until she has given the Silver Bell Flour a trial.

## A Tour of Europe.

Prof. J. A. Foshay, Supt. of Schools, Los Angeles, is organizing a party to leave the Pacific coast on June 11th for a tour of Europe including England, Scotland, Holland, the Rhine, Germany, Italy, Switzerland and France, with a six-days stop-over at St. Louis to see the Exposition. This will be a fine opportunity, especially for school teachers in the long vacation, to visit such historic spots as Stratford-on-Avon, Edinburgh, The Hague, Cologne, Frankfort, Venice, Geneva and Paris, whilst many more of equal interest, will be on the itinerary of the fortunate members of Prof. Foshay's party. Write Prof. Foshay for particulars.

Residence, Campbell.

## LOCAL NOTES.

Miss Grace Snyder has gone to visit friends at Palo Alto.

Dressmaking and all family sewing done at Mrs. E. E. Weeks'.

Shoes for Little Boys, Big Boys, Bigger Boys, All the Boys at Blodgett's.

Dr. Hope's Sarsaparilla makes Rich, Red Blood. Sold by P. F. Farrington, Druggist.

Dr. Hope's Sarsaparilla made especially for California climate. P. F. Farrington, Druggist.

French Suits, Tailor made Suits and all kinds of fancy dressmaking done by Mrs. M. J. Wilson.

Dr. P. C. Hartman is able to be around again, after a severe illness, but it will be some time before he will be strong enough to resume his practice.

W. H. Blodgett has been renovating the interior of his store and has made a vast change in the appearance. A room has been added on behind, new shelving and tables have been added, and everything has been newly painted. It makes a very much better store room and is in line with the growing demands of the town.

## Congregational Church Annual Meeting.

The annual roll call meeting of the Congregational society was held Thursday afternoon at the church. At the business session officers for the ensuing year were elected as follows: Trustee, F. M. Righter; clerk, Mrs. C. C. Call; treasurer, Mrs. B. G. Hurlbert; deacons, Dr. C. N. Cooper, Prof. J. F. Smith and W. C. McCaughey superintendent of schools, Mr. Doxsee; ushers, George Schuyler and Alden Abbott.

A written report was received from the pastor, the Rev. George Atkinson, (who was unfortunately ill with grip,) showing the progress of the past year. Reports were also received from other departments of work, the Sunday school, the Missionary society, the Ladies' guild and the Christian Endeavor, showing a healthy and growing state in all of them. A satisfactory sum was raised and sent off for missions.

The roll call was answered by scripture verses or personal testimony.

A delightful feature was the supper of which all partook at the close of the session.

# DYER'S CONFECTIONERY

A choice lot of fresh candies and soft drinks. Home made pies, cakes and doughnuts. Cigars, tobacco, jewelry, stationery and canned goods, oranges, lemons and apples. Tamales and fresh roasted peanuts. Light lunch served at any time. Ice Cream.

Phone, Red 34 — Next door to postoffice, Campbell
